---

### SECTION 2

VAC AERO International is an AS 9100 / ISO9001 and Nadcap Accredited heat-treating facility. We have included for your records our AS / ISO and Nadcap Certification. Our Quality Assurance Manual is available to you upon request only.

Our quality System is based on **"Continuous Improvement of Key Work Process Focused on Customer Expectations"**

Our quality Program addresses the following:

- |                                |  |
|--------------------------------|--|
| Contract Review                | Documentation Control                  |
| Quality Records                | Control of Inspection & Test Equipment |
| Purchasing                     | Control of Non-conforming Product      |
| Production and Test Plans      | Corrective Action Procedures           |
| Incoming Inspection            | Control of Customer Supplied Product   |
| Final Inspection               |  |
| Internal Quality System Audits |  |
| Product Traceability           | Personnel Training                     |
| Statistical Analysis           | After Sales Service                    |
| Storage & Handling             |  |

If you require any further Information pertaining to your survey, please do not hesitate to contact myself.

Yours truly,

Jose Fuentes  
Quality Assurance Manager
